

CRG AA Tools

Maximize your Analytical Accounting Investment

AA Tools

AA Tools were designed to help maximize your investment in Microsoft® Dynamics GP™ by facilitating the setup and ongoing maintenance of Dynamics Analytical Accounting™.

CRG AA Tools

Simplify the Maintenance of your Analytical Accounting

Developed using our expertise in Dynamics GP and years of successful Analytical Accounting, consulting, and implementations, AA Tools offers add-on functionality to simplify the management of Analytical Accounting tasks.

- Convert GL account segment values to AA dimension codes
- Streamline your chart of accounts
- Get better AA reporting & analytics
- Change and merge AA transaction dimension codes
- Backfill AA transaction dimension codes in scheduled batches

AA Tools available:

AA Segment Converter

- Streamline your chart of accounts
- Remove unwanted GL segments by converting them to AA Codes
- Update existing journal entries with the appropriate AA dimension codes

AA Backfiller

- Defer the entry of AA dimensions and codes to suit your company's schedule
- Mass assign AA transaction codes to existing posted GL transactions
- Streamline your entries by scheduling repeated batch assignments at desired intervals
- Assign a Transaction Dimension Code directly to the Journal Entries

AA Changer:

- Change or merge existing AA dimension codes
- Updates open & historical transactions to reflect changes
- Maintain a full history of AA changes for audit purposes

AA Cubes:

- Slice and dice your financial data using AA measures, dimensions, transactions, and source document information.
- Perform combined reporting & analysis with GL segments
