## MANAGE SALES DOCUMENTS FROM ANYWHERE.

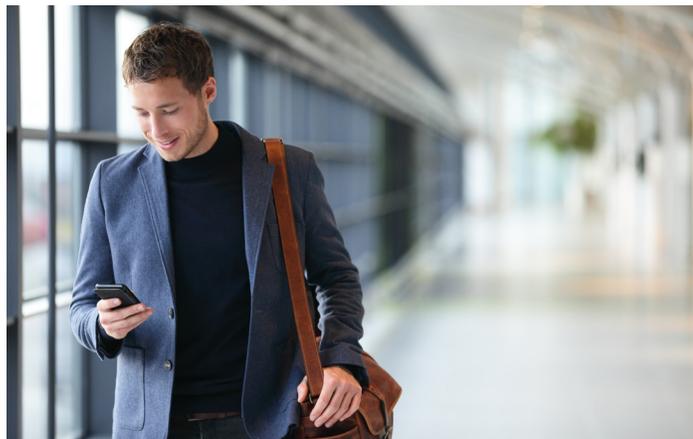

Create and edit quotes, orders, invoices, and returns while away from your desk. Don't let road trips or client visits slow you down in the slightest. Keep those sales documents moving right along with you.

## VIEW CUSTOMERS AND INVENTORY.

Got a question about a customer or an inventory item? Gone are the days of jotting down a note to check when you get back to your desk; you've got all that information right at your fingertips.

## BROWSE INVENTORY ITEMS CATALOG-STYLE.

View item images while browsing your inventory, and quickly find location and quantity information. The image-based inventory presentation makes locating what you're looking for easier than ever.

## SIGN DOCUMENTS ON YOUR MOBILE DEVICE.

No need to scan in separate documents or bother with printing while on-the-go, or for any sort of hassle whatsoever. Customers can sign documents on your mobile device using their finger or a compatible stylus.

## TAKE ADVANTAGE OF BLUETOOTH COMPATIBILITY.

SalesPad Mobile pairs with wedge scanners, receipt printers, EMV devices, etc., to further enhance your mobile experience.

## TAKE PAYMENTS WITH YOUR MOBILE DEVICE.

SalesPad Mobile allows you to securely accept payments using your mobile device. The PayFabric® integration makes accepting payments from customers simple and secure.

## STAY PRODUCTIVE WITH OFFLINE MODE.

Leaving the internet behind for a little while? No need to leave your work behind too. SalesPad Mobile's offline mode allows you to continue conducting most of your business while off the grid.

## REST EASY WITH THE INTUITIVE USER INTERFACE.

Easy to navigate and understand, SalesPad Mobile is designed to be a seamless way for you to stay in touch with your business, no matter where you are.

## The power of SalesPad in your pocket.

### MANAGE YOUR SALES, CUSTOMER, AND INVENTORY DATA WHILE ON THE GO.

SalesPad Mobile gives Microsoft Dynamics GP and SalesPad Desktop users the power to manage customers, inventory, and sales documents from the convenience of their iPhone®, iPad®, or Android™ mobile device. Whether traveling, on-site, or away from your workspace, SalesPad Mobile enables you to stay connected to your business.

Give your out-of-office users the power of SalesPad in their pocket, allowing them to never be disconnected from company operations. SalesPad Mobile offers interaction tracking, routing, and signature capture features.

Beyond being a great way to keep track of what's going on with your business, SalesPad Mobile is perfect for companies that attend trade shows, utilize dispatch and delivery services, or have outside sales teams. By interacting seamlessly with SalesPad Desktop's Dispatch module, SalesPad Mobile keeps your drivers and routes organized without headaches on your end.

### WHY SALESPAD MOBILE?

**SalesPad Mobile is easy to use.** If you're already running SalesPad Desktop, SalesPad Mobile is an easy way to expand your capabilities as an agile, adaptable business. The app pulls from the same database that SalesPad Desktop uses, and any changes made in one software will instantly be visible in the other. With SalesPad Mobile, the office always knows what's happening out in the field.

**SalesPad Mobile is equal parts convenient and powerful.** Harness the power of mobile by incorporating this simple but elegant tool. It's not just a window into your existing SalesPad or Microsoft GP data — a means of taking your business with you wherever you go. Access inventory data, create sales documents, take payments, and more from anywhere.

**SalesPad Mobile gets the job done.** Backed by the same reliability you already know and love in SalesPad Desktop, SalesPad Mobile was built to make short work of... well, work. Practical, compact, and intuitive, it's the portable workhorse you need. Once you've gotten on board with SalesPad Mobile, it'll be hard to imagine doing business without it.
